

NL140L

NHP NLINE Isolating Switch, Large IP 66 Plastic, 2 Pole 40A
250V AC

Component type	Switch disconnector
Range	NLINE Weatherproof Isolators
Model	N/A
Product status	Existing

NHP's NLINE weatherproof isolating switches are available in three current ratings and feature a large isolator handle for easy operation. A special gasket, stainless steel cover and screws increases ingress protection. The body is made of UV-resistant polycarbonate to offer extended life in outdoor applications. All switches are tested and approved to AS/NZS3133.

ELECTRICAL

Rated operating voltage Ue	250 V
Rated permanent current Iu	40.0 A
Number of poles	2.0

CONSTRUCTION

Degree of protection (IP), front side	IP66
